The citizens of Philadelphia have recently experimented in severe heat by a series of days, which have been attended with much suffering to the inhabitants of the city.

The temperature on the 16th of July was 108 degrees Fahrenheit, and the air was so oppressive that the usual hum and bustle of the city seemed to have ceased.

The citizens have been advised to keep their windows open, and to use all means to cool their homes.

The heat has been so intense that many have been forced to remain indoors, and to rely on artificial means of cooling.

The public health authorities have issued advice to use caution in avoiding exposure to the intense heat, and to drink plenty of cool water.
